

**CITY OF PLACENTIA
MEMBER OF THE CITY COUNCIL**

SCOTT P. BRADY

OCCUPATION: Councilmember, Business Owner

Placentia made great progress with strong leadership during the past four years:

Melrose Elementary will open this fall.

The new Whitten Community Center opens in September.

Melrose Underpass will be completed in November.

The Quiet Zone will permanently silence the train whistles by early 2005.

The revitalization and redevelopment of Old Town is underway with the selection of a Master Developer and sale of city owned property to TOD Properties.

We must not turn back from these successes. We must finish what we started by:

Permanently silencing train whistles throughout our city.

Securing state and federal funds for underpasses and overpasses at every major intersection.

Proceeding with the redevelopment of Old Town, anchored by a train station, affordable housing and new retail establishments.

Increasing city revenues to better fund our police force and provide additional community services.

Placentia can be more than just "A Pleasant Place." It can be a vibrant city with transportation options, a permanent solution to burdensome train traffic and financially secure. We can continue to improve and keep pace with our neighboring cities, or we can let these opportunities pass us by.

Vote for Scott P. Brady to finish what we started.
